Basis-Sportbrok

PRODUCT DESCRIPTION:

The Basic Sport pellet is a '**non-heating**' condition pellet widely fed to riding school horses and ponies, native breeds and nervous/temperamental horses and ponies that have to do light to moderate work and do not need extra energy. Of course, it is also suitable for horses that do not exercise at all. The Basic Sport pellet is **oat-free** and enriched with all **necessary vitamins, minerals and trace elements**. The 7-mm pellets are hard pressed and rich in fibre, so horses have to chew the pellet well, which contributes to good saliva production. Overall, a very complete, 100% natural pellet with a **favourable price/quality ratio**.

- ✓ **Oat-free**; ideal for horses that react strongly to oats
- ✓ Enriched with **vitamins, minerals and trace elements**
- ✓ Enriched with **natural oils** for a shiny coat
- ✓ **Low energy** proportion
- ✓ Fits perfectly into a ration of riding or recreational horses and ponies
- ✓ Good value for money

Low energy content &

Lysine	4.7 g	Folic Acid	2.5 mg	Cobalt (Co)	1.2 g
Methionine + cysteine	4.1 g			Iodine (I)	0.9 g
				Selenium (Se)	400 g

T = Total A = Added

Packaging: **20kg/25kg** bags

Composition: **Pellets**

COMPOSITION:

Wheat middlings, Barley, Wheat, Soya bean hulls(*), Maize(*), Cane molasses, Lucerne, Sunflower seed meal, Palm kernel expeller, Vinasses, Calcium carbonate, Sodium chloride, Vegetable oil and fat (soja(*)), Vegetable oil and fat (Linseed), Maize gluten, Magnesium oxide, Fatty acid distillates from physical refining(palm)

* = produced from genetically modified soybeans or mais.

FEEDING ADVICE:

It is important to feed a diet and quantity that meets the lifestyle and needs of the horse. A general guideline for the recommended total amount of concentrates per day:

- For maintenance and basic sport: 0.2 - 0.5kg per 100kg bodyweight
- For (top) sport: 0.5 - 0.75 kg per 100kg bodyweight

- Divide this daily ration into at least 2 - 3 meals per day.
- Always feed at least 1.5% of your horse/pony's body weight good quality based on dry matter roughage.
- Fresh drinking water must be available at all times.
