

PRODUCT DESCRIPTION

Cool-Mix is a specialty feed with easy digestible proteins from alfalfa and with extra spelt wheat. This complete and healthy muesli has a low and slow-releasing energy content. For this reason, it is named "Cool-Mix". The Cool-Mix is very suitable for (sport)horses that can get hot-tempered or nervous, but also fits perfectly to broodmares, leisure horses and horses at rest.

The Cool-Mix contains a high level of β -Carotene (from alfalfa) and also many micronized cereals (including heat-treated wheat, corn and barley flakes). The high content of natural spelt wheat stimulates the digestion and has a calming effect. Additionally, linseed oil is added to the muesli.

The Cool-Mix is suitable for oat free and sugar-reduced diets.

- Oat free and extra wheat spelt
- Low sugar content and highly digestible proteins
- Ideal for nervous or easy to feed horses
- Rich in vitamins, minerals and fibres
- Supports the fertility of mares

FEEDING GUIDELINE

It is important to feed a diet and quantity that meets the lifestyle and needs of the horse. A general guideline for the recommended total amount of concentrates per day:

- For maintenance and basic sport: 0.2 to 0.5 kg per 100 kg bodyweight.
- For (top) sport: 0.5 to 1.0 kg per 100 kg bodyweight.

Divide this daily ration into at least 2-3 meals per day. Always try to feed a minimum of 1.5% of bodyweight as good quality forage. Fresh drinking water must be available at all times.
